

Please do not relax the FCC rulings regarding the number of stations a person/business can own. Citizens numbering in at least the hundreds of thousands are saying "NO!" to this. You need to listen to the American people. Please allow a democratic debate over this issue. The air waves are not owned by the corporations or individuals, nor by the FCC. They are the American Public's. The FCC is there to protect and monitor our airwaves. Do not relax these rulings.
thank you
